

Forget All About .08

The BAC measure of .08 means a lot to adults. It represents a line in the sand. Cross it, and you could be in big trouble.

Your Toes Are Already On The Line!

If you are under 21, the BAC measurement you must avoid is anything above ZERO.

Harsh

A DUI at any age will mess with your LICENSE, your INSURANCE, and your SCHOOL or JOB. But penalties for drunk driving everywhere are HARSHER on teens. MORE jail, HIGHER fines, LONGER license suspension, the list goes on.

Oh, and things won't be so smooth at home either.

Our mission is to promote DUI prevention through education and to provide easy access to DUI-related services.

The Plain Truth From DrinkingAndDriving.Org

Feel the Freedom

Driving is such a major part of our lives. In most areas, driving is practically a requirement.

And getting a license gives a feeling of sudden freedom, doesn't it? It is perhaps the first thing that makes most of us FEEL like we are adults.

But Keep Your Head

It's easy to forget that driving is a PRIVILEGE, not a right. Remember that these privileges can be suspended or revoked.

"It's not like I'm gonna kill somebody"

If you think about it, you were granted a license because the tests you took showed you are capable of driving without harming anyone. Alcohol aside for a moment, consider this ...

The National Highway Traffic Safety Administration keeps a lot of statistics on teen drivers involved in DUIs and DUI-related fatalities.

Did you know that 7% of all licensed drivers are between 15 and 20 years old, but 15% of all fatal crashes involve the same age group? According to these numbers, you are actually twice as likely to die in car crash than adults 21 and over.

Those Numbers Don't Lie

And while most 'grown-ups' may not know those exact numbers, they all recognize the extra risk you face when you drive.

Ever wonder why your driving is watched so closely by your parents, neighbors, and local police? They all know that when you drive away, there is a small chance you won't come back! That's why if you drive, you can't take even one sip.

Not one sip! That's pretty tough, but if you give in to drinking and driving, and you get caught, it gets MUCH tougher.

Over 18, you may be an adult, BUT if you are under 21 ...

... and you are arrested for DUI, your penalties will be worse than if you were over 21.

The facts are simple. It is far easier for you to be arrested for DUI than your parents. For you, all it takes is a sip!
